Smart Environments and their Applications to Cultural Heritage

*Proceedings of a workshop
held in conjunction with UbiComp'05
Tokyo, Japan, 11th September, 2005*

This volume contains ten papers accepted for the workshop Smart Environments and their Applications to Cultural Heritage. The workshop was held as part of the UbiComp'05 Conference in Tokyo, Japan, on 11th September 2005.

The workshop was organised by members of the Pervasive Computing Group at the Computing Laboratory, University of Kent, UK, and the Mobile Media Lab ARCES at the Università di Bologna, Italy, and was partly supported by the EPOCH Network of Excellence.
