VAST2006 - The e-evolution of Information Communication Technology in Cultural Heritage

This volume contains the project papers presented at VAST2006, the 7th International Symposium on Virtual Reality, Archaeology and Intelligent Cultural Heritage which took place on 30 October to 4 November 2006 in Nicosia, Cyprus. The Conference title was "The e-evolution of Information Communication Technology in Cultural Heritage. Where Hi-Tech Touches the Past: Risks and Challenges for the 21st Century".

The Conference was jointly organized by CIPA, the International ICOMOS Committee on Heritage Documentation, and EPOCH, the European Network of Excellence on ICT applications to Cultural Heritage. It also hosted the first Euro-Med Conference on IT in Cultural Heritage and incorporated the Eurographic Workshop on Graphics and Cultural Heritage. Through EPOCH, VAST2006 received the support of the European Commission, and it was held under the auspices of the Government of Cyprus, Ministry of Education and Culture and Ministry of Commerce, Industry and Tourism.
